RE: Docket No. 98-4124, Notice 1  
Daytime Running Lights

To Whom It May Concern:

I own a 1997 Chevrolet Astro van with daytime running lights.

In my opinion the lights are too bright - not during the day, but at night. It is possible at night to drive using the daytime running lights and not realize that the other lights on the vehicle are not on. This can be a dangerous situation.

Sincerely,
